Summary

Motivated and detail-oriented Software Developer with a solid foundation in object-oriented programming, full-stack development, and modern frameworks like Spring Boot and React.js. Proven experience in building functional web applications through academic and personal projects. Adept at collaborating in team environments and passionate about continuous learning and applying new technologies.

SKILLS

Java SE J2EE Spring Spring Boot SQL MySQL JDBC JSP ORM JPA Hibernate REST API

JWT Authentication JUnit Testing Multithreading OOP's Java Collection DSA JavaScript CSS HTML

React JS Git GitHub Servlet IntelliJ IDE NetBeans Eclipse Spring Tool Suite Visual Studio Code Postman

Window Linux Team Collaboration Communication Time Management Adaptability Flexibility Problem Solving

Work Experience

Java Developer Intern – RealcoderZ technologies private limited | [October 2024– March 2025]

📍 815, Tower 2, Plot No 22, Assotech Business Cresterra, Sector 135, Noida, Uttar Pradesh 201305

- Developed and maintained SAAS based applications under the guidance of senior developers.
- Gained hands on experience with Spring boot, SQL queries, and web development basics.
- Assisted in designing CRUD operations using JDBC and Hibernate.
- Collaborated with the team in Agile sprints for requirement gathering and bug fixing.
- Worked on API integration using REST services and tested endpoints with Postman.
- Documented technical specifications, workflows, and project updates for better clarity.
- Collaborated with the team to fix bugs and improve application performance.

PROJECTS

DigiShop: Online Examination Platform Technology :

(Java, JSP, Servlet, CSS, JavaScript, MySQL)

- Designed user-friendly front-end using JSP and JavaScript.
- Implemented backend functionalities with Servlet and MySQL database integration.
- Enabled product listing, cart management, and basic checkout functionality.

TestPrep: Online Examination Platform

(Spring Boot, React.js, Java, MySQL, Postman API, JWT Token)

- Developed a full-stack web app for competitive exam prep using React.js, TypeScript, Spring Boot, and MySQL.
- Features include realistic test simulation, automated scoring with negative marking, performance analytics, and admin-managed test creation.
- Implemented JWT-based authentication, ensured scalability, and designed a responsive UI for mobile access.

WebKart: eCommerce Web Application

(Spring Boot, React.js, Java, MySQL, Postman API, JWT Token)

- Developed a fully responsive eCommerce platform using React.js, JavaScript, Tailwind CSS, Spring Boot, and MySQL.
- Implemented JWT-based authentication and role-based access control for secure user management.
- Built RESTful APIs to manage products, user accounts, shopping carts, orders, and payments.
- Used Redux for efficient state management and React Hook Form for form handling.
- Focused on performance optimization, accessibility, and a seamless user experience across all devices.

Education

Bachelor of Technology in CS&IT

DRONACHARYA GROUP OF INSTITUTIONS | Greater Noida, Uttar Pradesh, India

[2021 - 2025]

Intermediate (Class 12), Science

RAMBILASH HIGH SCHOOL | Bermo, Jharkhand, India

[2017 - 2019]

CERTIFICATION

Java SE - INCAPP, Greater Noida

[18 Apr 2023 - 17 Jun 2023]

Java EE- INCAPP, Greater Noida

[4 Nov 2023 - 11 Feb 2024]

LANGUAGE

English (Professional) ,Hindi (Native)
